

# labourteq™

Simple. Smart. Secure.

Transform your  
Employee Relations (ER) today!

Transition to a novel solution built for the South African workplace that reduces a firefighting approach to ER and instead supports constructive, legally compliant, and fair engagement with your employees.

Labourteq™ is a **Cloud solution** comprising dynamic workflows. It supports the proactive management of Misconduct and Incapacity Poor Performance issues in your workplace.

## Your Challenges, Our Solutions.

Labourteq™ has been custom developed to:

**Reduce risk and costs** by minimising mistakes and unfairness through a proactive, consistent approach.

**Say goodbye to inefficient**, old-school, manual processes and graduate to a secure Cloud-based solution.

**Empower your HR teams** and line managers through real-time guidance and embedded resources.

**Connect the relevant role players** on a case, and enable efficient, real-time collaboration.

**Extract real-time ER data and trends**, so that you can identify root cause issues in your business and act systematically to reduce risk.

**Manage cases more efficiently** and save time through automated features and communications.

**Secure and retain all sensitive, private ER data** in one place and never lose a document or case history again.

**Facilitate consistent decision-making** and improved coordination in distributed workplaces.

**Use a Cloud solution** to manage ER issues digitally in the new remote and hybrid world of work.

**Set up the system** to drive your own Codes and Policies, or use Labourteq's legally compliant resources.
